

Unisplendour Corporation Reports Strong H1 2026 Results, Driven by AI Growth and Global Expansion

BEIJING, China, August 28, 2026 – Unisplendour Corporation Limited, a leading provider of full-stack ICT infrastructure and digital solutions, announced its 2026 half-year results, achieving strong performance driven by accelerated growth in AI infrastructure, enterprise digital transformation, and overseas expansion.

In H1 2026, Unisplendour achieved operating revenue of RMB 63.516 billion, an increase of 33.93% year-on-year, with net profit attributable to shareholders reaching RMB 2.167 billion, up 108.18% year-on-year.

H3C, Unisplendour's core subsidiary and growth engine, delivered strong momentum in H1 2026, achieving revenue of RMB 49.975 billion, representing 37.28% year-on-year growth, and net profit of RMB 2.388 billion, up 29.03%, driven by strong performance across government and enterprise markets, accelerated AI infrastructure development, and expanding overseas business.

Leveraging its "AI in ALL" strategy, H3C continues to strengthen its full-stack AI infrastructure capabilities across computing, networking, storage, cloud, security, and O&M. By leveraging the synergy of computing and connectivity, and integrating data, AI capabilities, and industry expertise, H3C helps customers build efficient, scalable AI infrastructure and accelerate intelligent transformation across industries.

H3C's overseas business maintained rapid growth momentum in H1 2026, generating revenue of RMB 2.941 billion, up 53.25% year-on-year. The company achieved continued expansion across key international markets..

In Southeast Asia, H3C achieved breakthroughs in digital transformation projects for leading financial institutions and education cloud platforms, while successfully delivering multiple large-scale AI computing projects.

In Latin America, H3C supported government digital transformation initiatives and expanded solutions across public service sectors including healthcare, transportation, and justice. These achievements demonstrate H3C's growing capability to replicate industry solutions across global markets.

H3C's global competitiveness has also received industry recognition. According to IDC, the company ranks No. 2 globally by market share in enterprise core routers, No. 4 in campus switches and enterprise branch routers, and among the top five in data center switching. In H1 2026, H3C was once again recognized in the Gartner® Magic Quadrant™ for Enterprise Wired and

Wireless LAN Infrastructure. Its WLAN products also obtained EUCC certification at the “Substantial” assurance level, demonstrating internationally recognized security and compliance capabilities.

With its strong foundation in ICT infrastructure and AI innovation, H3C is accelerating global expansion and strengthening collaboration with customers and ecosystem partners worldwide. By combining technological innovation with industry expertise, H3C continues to help organizations embrace the intelligent era and drive digital transformation across industries.
